Introduction

1. The Commission of the European Communities, in its reply to the note by the Secretary-General of UNCTAD of October 1973, has provided detailed statistical information on imports by the EEC in 1987, classified by beneficiary and by product. This information is summarized below and shown in detail in tables 1 and 2 of the annex to this note. The information contained in table 1 relates to the value of total imports from the world - of which, GSP beneficiaries, GSP covered and preferential imports from each effective beneficiary, as well as nominal beneficiaries - of products falling in CCCN chapters 1-24, 25-99 and 1-99. In addition, detail on imports (covered and preferential) is given regarding each beneficiary according to the categories of products specified in the EEC scheme for 1987. 1/ The information shown in table 2 gives the value of products covered by the scheme imported from the world, of total imports from all beneficiaries and of preferential imports from effective beneficiaries, as well as from the five major beneficiary suppliers of the covered products. 2/

EEC imports from effective beneficiary suppliers in 1987

2. The beneficiaries listed in the scheme include countries which already benefit from special preferences under special arrangements or bilateral agreements with the EEC. The former covers African, Caribbean and Pacific countries (ACP), for which trade is governed by the Lomé Convention. The latter covers the Mediterranean countries 3/ and Yugoslavia. All these countries are considered as nominal beneficiaries while effective beneficiaries include all Latin American countries and most Asian countries and Romania. Furthermore, all territories, dependent or administered by any member State of the EEC, are also recognized as nominal beneficiaries. In the following analysis, only imports from effective beneficiaries are taken into account.

3. Total EEC imports from effective beneficiaries in 1987, as shown in table 1 A of the annex, amounted to $94.5 billion. 4/ Dutiable imports amounted to $51 billion or 54 per cent of the value of total imports. Of these dutiable imports 88.6 per cent ($45.2 billion) were covered by the scheme. The bulk of these covered products ($37.8 billion or 83.7 per cent) consisted of industrial products falling within Custom Council Co-operation Nomenclature (CCCN) chapters 25 to 99. Agricultural products in CCCN chapters 1 to 24 accounted for the remaining $7.4 billion. Those imports which actually received preferential treatment amounted to $17 billion of which $12.9 billion or 75.9 per cent were industrial products and $4.1 billion agricultural products. The overall rate of utilization of the scheme, as measured by the ratio of imports which actually received preferential treatment to imports covered by the scheme, was 37.6 per cent in 1987. The utilization rates for agricultural and industrial products, respectively, amounted to 55.6 per cent and 34.1 per cent.

4. Fourteen effective major suppliers accounted for $35.5 billion or 78.7 per cent of all imports covered by the scheme in 1987 and of $13.3 billion or 78.1 per cent of total value of imports which actually received preferences. By order of importance, the major suppliers were: Republic of Korea, Hong Kong, China, Brazil, India, Singapore, Romania, Thailand, Malaysia, Saudi Arabia, Indonesia, Philippines, Kuwait, and Pakistan.

5. Covered EEC imports from 10 effective beneficiaries amongst the least developed countries (LDCs) 5/ attained a value of $424.3 million in 1987 of which $279.2 million or 65.8 per cent received preferential treatment. Bangladesh ($156.1 million); Nepal ($44.1 million); Haiti ($35.3 million) and Afghanistan ($25.8 million) accounted for 93.6 per cent of the total preferential imports from the group of LDCs beneficiaries in 1987.

6. EEC imports of covered products from ACP, Mediterranean countries (MED) and Yugoslavia, which enjoy special tariff preferences in the EEC market, amounted to $4.9 billion, $3.9 billion and $2.1 billion, respectively which altogether represented 20.3 per cent of total covered imports from all beneficiaries (effective and nominal).

7. As may be seen from table 1 B, the EEC registered imports from 61 effective beneficiaries, 2 of which failed to receive preferential imports although some of their imports were covered by the EEC scheme. 6/ The reason may be that the goods in question did not satisfy the origin requirements, or that the beneficiaries simply did not claim preferential treatment. In all 59 recognized effective beneficiaries actually received GSP treatment in 1987.

Imports of products covered by the scheme in 1987 and their five major suppliers

8. Table 2 of the annex shows the value of EEC imports in 1987 of products covered by the scheme according to the specified categories. Imports of products are given from all sources, from all beneficiaries (nominal and effective) and from the first five individual major beneficiary suppliers as well as the value of imports of these products which effectively received preferential treatment in the case of effective beneficiaries only.

9. Imports from beneficiaries of major agricultural products covered by the scheme in 1987, were recorded under 25 nimex lines. These imports amounted to $8.9 billion or 80.4 per cent of agricultural imports covered by the scheme.

10. Some 16 major agricultural products, valued at $100 million or more, accounted for 91.7 per cent of covered imports of the 25 major products in 1987. The most important products 7/ were: (090111) coffee unroasted ($4,741); (240102) Virginia tobacco ($589); (030349) other shrimps and prawns ($484); (160253) other prepared bovine meat ($285); (230130) flour and meals of fish ($274); (150761) crude palm-oil ($221); (180400) cocoa butter ($182); (090411) other pepper ($170); (150777) crude coconut oil ($169); (200638) preserved pineapple with sugar ($160); (030180) other fish, fresh or chilled ($155); (240161) light air-cured tobacco not stripped ($148); (150726) crude soya bean oil ($144); (160530) crustaceans ($140); (210211) solid extracts of coffee ($137); (080570) pistachios ($117).

11. Imports from beneficiaries of major industrial products covered by the scheme in 1987 were recorded under 108 nimex lines of industrial products other than textiles and 45 products groups of textiles products, as defined under the 1987 scheme. Imports of products falling within these two categories (CCCN chapters 25 to 99) amounted to $36.2 billion or 84.3 per cent of all industrial products covered by the scheme.

12. Some 32 major industrial products, for which imports were valued at $300 million or more, accounted for 63.2 per cent of covered imports of the 153 major products in 1987.

13. The most important products 8/ were: (271059) gas oils ($3,383); (271100) petroleum gases ($1,617); (851512) pocket receivers ($1,502); (710200) precious and semi-precious pearls ($1,394); (845320) other automatic data processing machines ($1,237); (852147) wafers not yet cut into chips ($922); (271015) white spirits ($903); (400050) knitted or crocheted jerseys, pullovers ... ($866); (400080) men's and boys' undergarments ($763); (400210) parkas, anoraks, wind jackets ... ($738); (400060) men's and boys' woven breeches, shorts ..., women's or girls' woven trousers and slacks ... ($732); (970300) other toys ($581); (400040) shirts, T-shirts, light-weight fine knit roll, polo ... ($558); (400023) woven fabrics of cotton unbleached or bleached ($555); (840800) other engines and motors ($525); (420221) trunks, valises of leather ($523); (890100) ships, boats ... ($483); (400070) women's and girls' blouses, skirts ... ($481); (851546) colour television receivers ... ($480); (640221) ski boots ($428); (441500) plywood ... ($418); (870221) new motor coaches and buses not exceeding 1,500 cm^3 ($406); (840600) internal combustion piston engines ($405); (400014) cotton yarn not put up for retail sale ($392); (410221) boxcalf ($366); (420310) articles of apparel of leather ... ($339); (530780) other garments other than knitted or crocheted ($317); (845510) address plates ($314); (921181) television using magnetic tape-types ... ($313); (470100) pulp ... ($311); (400150) women's or girls' coats, raincoats ... ($308); (400584) carpets, carpeting knitted ($304).

Notes

1/ See the EC Official Journal, L 373, vol. 29 of 31 December 1986.

2/ For information on preferential imports for preceding years see TD/B/C.5/30/Add.2, 4 and 12 and TD/B/C.5/PREF/30.

3/ Algeria, Cyprus, Egypt, Jordan, Lebanon, Malta, Morocco, Syrian Arab Republic, and Tunisia.

4/ Which represented 24.2 per cent of total EEC imports from all sources other than intra-EEC trade.

5/ Afghanistan, Bangladesh, Bhutan, Myanmar, Laos, Maldives, Nepal, Yemen, Democratic Yemen and Haiti. This latter beneficiary joined ACP countries in 1990 and therefore is actually considered as a nominal beneficiary.

6/ New Zealand, Oceania and United States Virgin Islands.

7/ Each major product is defined by its nimex number between brackets, followed by a brief description of the product and the value of covered imports expressed in millions of United States dollars.

8/ Each major product is defined by its nimex number between brackets, or by the number code of the product group in the case of textiles, followed by a brief description of the products and the value of covered imports expressed in millions of United States dollars.

Annex

Explanatory notes

How to read tables 1 and 2

Table 1 B

Information is given by country on total imports (dutiable and non-dutiable) at the level of aggregate imports (agricultural products falling within CCCN chapters 1 to 24 and industrial products within CCCN chapters 25 to 99). A breakdown according to categories defined in the 1987 EEC scheme is given for covered and preferential received imports. Categories are contained in the Official Journal of the EC, L 373, volume 29, 31 December 1986. They are the following:

1. Industrial products other than textiles and ECSC steel products: EEC Regulation No. 3924/86

   (a) Category 09: Sensitive petroleum products

   (b) Category 10: Other sensitive industrial products

   (c) Category 29: Other petroleum products

   (d) Category 30: Non-sensitive industrial products

2. Textiles: EEC Regulation No. 3925/86

   (a) Category 40: MFA textiles

   (b) Category 42: Non-MFN textiles

   (c) Category 47: Jute and coir products

3. Agricultural products: EEC Regulation No. 3926/86

   (a) Category 50: Sensitive agricultural products

   (b) Category 52: Other agricultural products

4. ECSC iron and steel products: Decision 86/638/ECSC

   (a) Category 60: Sensitive ECSC iron and steel products

   (b) Category 62: Non-sensitive ECSC iron and steel products

Table 2

Information is given according to categories seen above at the nimex level (however, in the case of all textile products including jute and coir, the breakdown is given not according to the nimex line, but according to the product groups as defined in the scheme under each code number).

Definitions of products at the nimex level for 1987 are provided in the Official Journal of the EC, L 368, volume 29, 29 December 1986. In this connection, it should be recalled that the first four digits of the nimex are those of the Custom Council Co-operation Nomenclature (CCCN) and the CCCN may therefore be referred to for a broader definition. The headings of the table should read as follows:

(a) World: Imports from all sources less intra-EEC-trade

(b) Covered: Imports from all beneficiaries (nominal and effective) (by nature all these imports are covered since information is given at the level of covered heading)

(c) Received: Imports which received preferences from effective beneficiaries only

(d) 1 to 5: The first five major suppliers (effective and nominal). When the major supplier is a nominal beneficiary, obviously, received preferential imports are not given.

(e) Full name of major beneficiaries is given below.
